TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript
- **Frontend Web Development:** HTML5, CSS3, REST API Integration, CRUD Operations, DOM Manipulation, Asynchronous JavaScript, Responsive Web Design, Web Accessibility (a11y), Performance Optimization
- **Frontend Tools:** Git & GitHub, Netlify, Vercel, Chrome DevTools, Figma, Vite, Parcel, npm
- **Frameworks & Libraries:** Tailwind CSS, React.js, Next.js, Bootstrap, Redux.js (toolkit and rtk query), Zustand, GSAP, Framer Motion, shadcn/ui, Material UI
- **Backend Development:** Node.js, Express.js, RESTful APIs, EJS, MongoDB, Mongoose, Authentication & Authorization (bcrypt, JWT, Cookies), API Testing (Postman), **AI Integration**
- **CMS:** WordPress

PROFESSIONAL EXPERIENCE

Junior WordPress Developer, Code Wise **Aug 2023 - Jan 2024**

- Built and maintained responsive WordPress websites using **Elementor**, ensuring cross-browser and mobile compatibility.
- Collaborated with the design and development teams to deliver live client projects on time.

Full-Stack Mern Developer, Ideoversity **Feb 2026 - May 2026**

- Completed a 3-month MERN stack web development training program at Ideoversity, under NAVTTC.

PROJECTS

- **PromptQuiz:** A full-stack AI-powered quiz platform built with **Next.js**, **TypeScript**, **Tailwind CSS**, **Express.js**, and **MongoDB** that eliminates the manual effort of drafting educational assessments. Solves the problem of rigid, pre-made quiz banks by **dynamically generating custom assessments on any topic in seconds using the Google Gemini API**, bypassing traditional database storage bottlenecks for questions. Features a secure **OTP email authentication system via Brevo** using **React Hook Form** for validations and **React Hot Toast** for alerts, a **user dashboard** tracking progress and past quiz history with replay capabilities, and a custom quiz configuration engine allowing users to select topic prompts, question lengths, difficulty levels, and per-question timers.
- **AI Component Generator**: A web application built with React and Tailwind CSS that allows users to instantly generate fully functional components across multiple frameworks using the Google Gemini API. Features a fully integrated Monaco code editor for real-time code editing, a sandboxed live preview system with client-side Babel compilation, theme toggling, and instant copy/export capabilities.
- **AI Code Reviewer**: A web application built with **React**, **Tailwind CSS** that leverages the **Google Gemini API** to analyze code and provide automated feedback. Features an **interactive code editor** using react-simple-code-editor and Prism.js for **syntax highlighting**, alongside dynamic **Markdown parsing** for **structured AI responses**.
- **Image Editor :** A responsive web-based image editor built with **React**, **Tailwind CSS**, and the HTML5 **Canvas API**. Allows users to upload images, apply custom filters, reset changes, and export edits through a clean, dark-themed UI.

CERTIFICATE

Web Development Certificate | PSDF **Feb 2022 - Jul 2022**

- Completed a 6-month hands-on training program covering Frontend and Backend. Gained practical experience in building responsive websites and working on real-world projects.

EDUCATION

FSC ENGINEERING **Feb 2019 - Feb 2021**

Bachelor of Arts **Jan 2022 - Jan 2024**
